## **EXAMINER'S REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest: (1) the claimed methods of forming a composite membrane, wherein an active layer is formed on an extruded and annealed precursor film by coating a liquid polymer solution which is the precursor of the active layer, followed by drying the coated film, followed by multiple stretching steps at different temperatures and heat-setting (claims 17, 33). Specifically, the LEE ET AL patents (US 6,540,953 and 6,710,098 and 6,830,849) and WO '464 each fail to claim or disclose the recited process incorporating a step of forming the active layer using a liquid polymer solution prior to drying and multiple stretching operations at different temperatures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
